Subject: Coronavirus News

To all our PF team,

Coronavirus is in the news, and it is important to understand what we can all do to reduce risk of illness for our employees, our families and our customers.

Here is a link below to the Center For Disease Control (CDC) web site. It is simple to use with basic information that will help us be prepared if and when we have cases in Michigan.

<https://www.cdc.gov/coronavirus/2019-ncov/index.html>

Best advice from all the sources I've read: wash your hands well, use hand sanitizer in between, avoid shaking hands and (most important and most difficult to do) avoid touching your face (around eyes, nose and mouth) with your hands.

Be well.

Kirk
